[†]Up-To-Date: 3 doses of polio vaccine; and 4 doses of DTP, or combination of DTP and diphtheria-tetanus toxoids-containing vaccine; and 1 or more doses of measles, mumps and rubella-containing vaccine,

separately or combined, on or after 1st birthday and 3 or more doses of hepatitis B vaccine; and 1 or more doses of varicella vaccine or physician-documented varicella (chickenpox) disease.

*Conditional Entrant is an enrollee who does not meet all requirements. This enrollee must be followed up because he/she:

lacks (i.e., is not yet due for) at least one dose and does not have a personal beliefs or permanent medical exemption; or

has a physician affidavit of Temporary Medical Exemption for one or more doses.

**A Permanent Medical Exemption (PME): granted upon the filing with the facility of a written statement from a licensed physician to the effect

that the physical condition of the student or medical circumstances relating to the enrollee are such that immunization is permanently not indicated.

§ A Personal Belief Exemption (PBE), whereby a parent requests exemption from the immunization requirements for child care/preschool entry. A new state law that went into effect in January 2014 now requires parents seeking an exemption for their children to document that they have received vaccine counseling from a qualified health care practitioner within the last 6 months ('Health Care Practitioner PBE') or that they have a religious objection to receiving such counseling ('Religious PBE'). Children already enrolled in child care/preschool prior to January 2014 ('pre-Jan PBE') were not subject to the new requirement. The number in this field represents the total PBE students as calculated by adding together the children in each of the PBE subcategories.

§§ A Personal Belief Exemption (PBE) obtained prior to January 1, 2014 whereby a parent signed an affidavit requesting the exemption.

§§§ A Health Care Practitioner counseled Personal Belief Exemption (PBE) obtained by the parent who provides documentation that a health care practitioner has informed the parent regarding 1) the benefits and risks of immunization,

2) the health risks to the student and to the community of the communicable diseases for which immunization is required in CA

§§§§ A Religious Exemption whereby a parent signs an affidavit requesting an exemption from the immunization because s/he is a member of a religion which prohibits him/her from seeking medical advice or treatment from authorized health care practitioners

¥ 3 or more doses of polio vaccine; Oral polio vaccine (OPV) or inactivated polio vaccine (IPV) or any combination of these.

II 1 or more doses Measles, Mumps, and Rubella separately or combined on or after the 1st birthday
